

First Base

ELLA BACHÉ Great Suncover 30+ Foundation is now available in four natural colours delivering a smoother, silkier texture and flawless complexion. Light reflective enhanced illuminators create a more natural, even skin cover, revealing the skin's natural translucency and providing a radiant, complexion. The formula is enriched with extracts of green tea, jojoba and lanolin to protect from moisture loss.

Pout Perfection

JANE IREDALE has everything needed to create a perfect pout. **Step one:** exfoliate with beeswax and organic brown sugar in **Sugar&Butter**, **step two:** plump with the other end of **Sugar&Butter** which contains a peptide that can help increase hydration and stimulate collagen synthesis, **step three:** line and define to create a border for the lipstick and minimise feathering. Choose from twelve shades and opt for a colour that most closely matches the lip colour you wish to use. **Step four:** colour lips red. Choose a red to suit the skintone - blue undertone, yellow undertone or neutral - **PureMoist** lip colour in **Carrie** suits most skin tones. Finish with a dab of **PureGloss** lip gloss in the middle of the lower lip.

Alexami

ALEXAMI is a dedicated professional range containing naturally occurring minerals to provide rich, lasting pigments without the harsh preservatives and fillers found in some cosmetics. These Australian made mineral cosmetics give skin a flawless appearance and will not clog pores which is ideal for those with sensitive skin, acne, eczema, dermatitis and rosacea. The Alexami range was created by former hairdresser, makeup artist and image consultant, Alenka Dirnbek, "to address the growing need for truly natural and safe cosmetics made from quality ingredients that are kind to your skin and the planet, but without overlooking fashion-forward colour palettes."
